

## Mint of the United States at Philadelphia,

## MELTING AND REFINING DEPARTMENT,

24. April . 1882.

Sir,

While the floors on the first floor of the Mint are being replaced with asphalt sand, may I suggest that there would be economy in replacing the floor of the Laboratory in a similar manner. The Assayer is now engaged there in making his cupsels, & the present floor, ~~the~~ 3<sup>rd</sup> I have seen since I have had it in charge, is partly rotten, & giving way.

Very Respectfully,  
J. C. BoothHon. A. Loudon Snowden  
Superintendent.
